

## IQUBAL REYAZ

Hyderabad, India | +91-7799178618 | iqubalreyaz@gmail.com

### PROFESSIONAL SUMMARY

Senior Backend / Cloud Engineer with 12+ years of experience designing, automating, and operating large-scale production systems. Strong expertise in Golang, AWS, Terraform, and CI/CD pipelines with proven impact in reducing operational effort (900+ hours annually) and improving system reliability. Experienced in backend API development, infrastructure automation, and SRE practices for enterprise clients including JP Morgan Chase.

### TECHNICAL SKILLS

- Core Technologies: Golang, Python.
- AI & LLM Tools: Agentic, Copilot, Windsurf (Codeium), Model Context Protocol (MCP), ChatGPT, Deepseek, RAG based systems, Ollama (llama3.1, deepseek).
- Cloud & DevOps: AWS (EC2, S3, IAM, DynamoDB, EKS, ECS, Lambda etc.). Designing and implementing cloud-native architecture, Terraform, Ansible, Jenkins, CI/CD
- Backend Frameworks: Django, FastAPI
- Databases: DynamoDB, Oracle
- Frameworks: Django, FastAPI
- Middleware: IBM WebSphere Application Server, Tomcat, Apache
- Operating Systems: Linux, Windows
- Version Control & Tools: Git, Jira, VS Code, IntelliJ IDEA

### CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- AWS Certified Developer – Associate
- Site Reliability Engineer – Google Cloud (Coursera)
- IBM WebSphere Application Server Administration 8.5
- Programming for Everybody – Python

### PROFESSIONAL EXPERIENCE

1. Lead Software Engineer— JP Morgan Chase, Hyderabad | June 2026 – Present
  - Working on Developing an internal tool to help the DevOps team to maintain the lifecycle of the Terraform Modules
  - Leading and mentoring team in developing MCP servers to be integrated with Copilot.
2. Senior Software Engineer — JP Morgan Chase, Hyderabad | Jan 2020 – May 2026

- Designed and developed Golang-based CLI tools to automate environment provisioning and operational workflows.
  - Built backend APIs using Django and FastAPI integrated with AWS services and DynamoDB.
  - Provisioned and managed AWS infrastructure using Terraform, enabling repeatable and scalable environments.
  - Implemented CI/CD pipelines using Jenkins to support safe and reliable production deployments.
  - Mentored and trained team members across onshore and offshore teams on project architecture and tooling.
  - Played key role in production deployments and feature ownership following SAFe Agile practices.
3. Site Reliability Engineer — HTC Global Services (Client: JPMC) | May 2018 – Dec 2019
- Led automation initiatives as sole automation contributor within the SRE team.
  - Developed Ansible-based automation reducing manual operational effort by 900+ hours annually.
  - Automated application server lifecycle tasks including start/stop/restart and patching workflows.
  - Designed end-to-end automation workflows by integrating multiple micro-automation scripts.
  - Mentored and trained team members for setting up automation lab environments on Ansible and scripting.
4. Senior DevOps Engineer — ADP Pvt Ltd., Hyderabad | May 2016 – Apr 2018
- Set up and managed Development, QA, and Production environments.
  - Provided L2/L3 support and troubleshooting for enterprise middleware platforms.
  - Authored shell scripts and Ansible playbooks to automate repeatable operational tasks.
  - Worked on setting up of the CICD pipelines for all the environments.
  - Recognized by clients for timely delivery and operational reliability.
5. Senior Analyst — HCL Technologies (Client: Disney) | Mar 2013 – Jan 2016
- Supported high-availability production environments for enterprise customers.
  - Built and maintained Dev, QA, and Production servers across Linux and Windows platforms.
  - Handled production incidents, root cause analysis, and preventive automation tasks.
  - Coordinated with IBM support teams for WebSphere and HTTP Server defect resolution. Setup high-availability environments for the applications.

## EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering  
Uttar Pradesh Technical University, Lucknow | 2008 – 2012
